Member Action Needed Today to Advance CPA Bills in Legislature

Legislation to bring Missouri in line with the Uniform Accountancy Act is poised for a vote in the House. The changes MOCPA supports are in [SB 395](#) and [SB 125](#).

Communicating your support of these changes to your state representative is critical. If you have not done so, please email your representative and tell him or her that you support the changes to the accountancy law. Please copy MOCPA on your email at dhull@mocpa.org. To find your representative's contact information, please [click here](#).

Timing on this is critical, as it could be voted at anytime. Thank you for your support and for helping to advance the CPA profession in Missouri!
